Motor Vehicles Not Allowed on District Channels

WFDD welcomes recreational use of its trails and channel rights-of-way in most cases, and while much District property is designed for safe pedestrian and bicycle use, it is not intended for motor vehicle use of any kind, including dirt bikes, ATVs or golf carts. Off-road vehicles damage embankment walls, slopes and vegetation designed to ensure proper performance of drainage infrastructure, resulting in costly repairs.

WFDD is also concerned about public safety. "Other districts have witnessed serious injuries and deaths from ATVs flipping when driven on uneven terrain or channel side slopes, and we don't want this to happen in WFDD," said Andrew Dunn of On-Site Protection, who oversees District security. "We have stepped up enforcement, including additional patrols and issuing of citations that carry a fine up to \$1,000 to help discourage the recent uptick in off-road motor vehicle activity and have the authority to seize and impound vehicles."

To report unauthorized vehicles, call the Fort Bend County Sheriff's non-emergency number at [281-341-4665](tel:281-341-4665). In an emergency, call 9-1-1. [Read more on WFDD security](#) on our website.
